ADDENDUM #1

RELEASE DATE: August 27, 2026

PROJECT TITLE: Post Fire Six Rivers 2022 Restoration Project Phase 3

The purpose of this Addendum is to modify the Contract Documents for the subject project. This Addendum shall become part of said Contract Documents.

THE FOLLOWING ITEMS ARE INTENDED FOR INFORMATIONAL PURPOSES ONLY:

Item 1. BIDDERS' QUESTIONS AND HCRCD RESPONSES:

- 1. Is it permissible to lop and scatter all of the material on the sites? Lop and scatter burnt trees that the mill will not accept?**

CONTRACTOR may determine the method of treatment so long as the slash depth requirements are met per the CAL FIRE Forest Resilience Exemption. A preference for mastication or chipping treatments will be given based on efficiency and treatment effectiveness to reduce fuel loads.

- 2. While trucks are hauling, will the landowners allow the gates to be open continuously?**

No. CONTRACTOR can work with HCRCD staff to have more personnel available to open the gate.

- 3. Will the landowners require dust control while the log trucks are operating?**

No; however, operations are still subject to general environmental and local laws.

- 4. This project has a strict time constraint, but available work days are dependent on unknown weather conditions and restrictions. Should time be limited, will payment for hauling and transportation of decked logs be decreased, but the payment of acreage stay consistent with the work performed?**

CONTRACTOR will be paid for units completed (acres) and at a time and materials rate on a per hour basis for trucking and loading, consistent with the proposal. Work in a given area will be considered complete when tree and understory thinning is completed, slash/debris is treated, and logs are hauled off the landing, relocated or left at request of the RCD/landowners.

- 5. Please send us an updated planholders/bidders list so we can update our database with the most current information available.**

There is no planholders/bidders list. The non-mandatory pre-bid sign-in sheet can be found [here](#).

6. Are there any changes to the bid date?

No.

7. Please provide a construction cost estimate or budget range if available.

Approximately \$250,000.00 is available in funding, not including loading and transportation.
